In this comprehensive guide, Haines provides step-by-step instructions for a variety of innovative watercolor techniques, including:

- **Watercolor glazes:** Glazing is a technique that involves layering multiple transparent washes of watercolor to create a rich, luminous effect. Haines demonstrates how to use glazes to create a wide range of effects, from soft, ethereal landscapes to vibrant, abstract compositions.

- **Watercolor washes:** Washes are a fundamental watercolor technique that involves applying a thin layer of paint to paper. Haines teaches readers how to create smooth, even washes and how to use them to build up layers of color.
- **Watercolor dry brushing:** Dry brushing is a technique that involves using a dry brush to apply paint to paper. This creates a textured, painterly effect that is perfect for landscapes, portraits, and still lifes.
- **Watercolor masking:** Masking is a technique that involves covering areas of paper with masking fluid to prevent paint from adhering. This allows artists to create precise shapes and patterns in their watercolors.
- **Watercolor lifting:** Lifting is a technique that involves removing paint from paper using a wet brush. This can be used to create highlights, details, and other effects.
